

PLEASE let KLOVE continue over the airwaves. There are no words to explain what this radio station has done for my life - spritiual and emotional. I do not listen to any other radio station now and have not listened to any other radio station in over 5 years. This station provides clean entertainment that you don't have to be afraid to hear. KLOVE serves as a witness for Jesus Christ in all communities and allows all of those who listen to change their lives to be more like Christ. PLease do not take away their broadcasting rights!!
